

MUBARAK ABIOL KESHIRO-20044313
THIS IS A MININET SIMULATION WITH NO POX

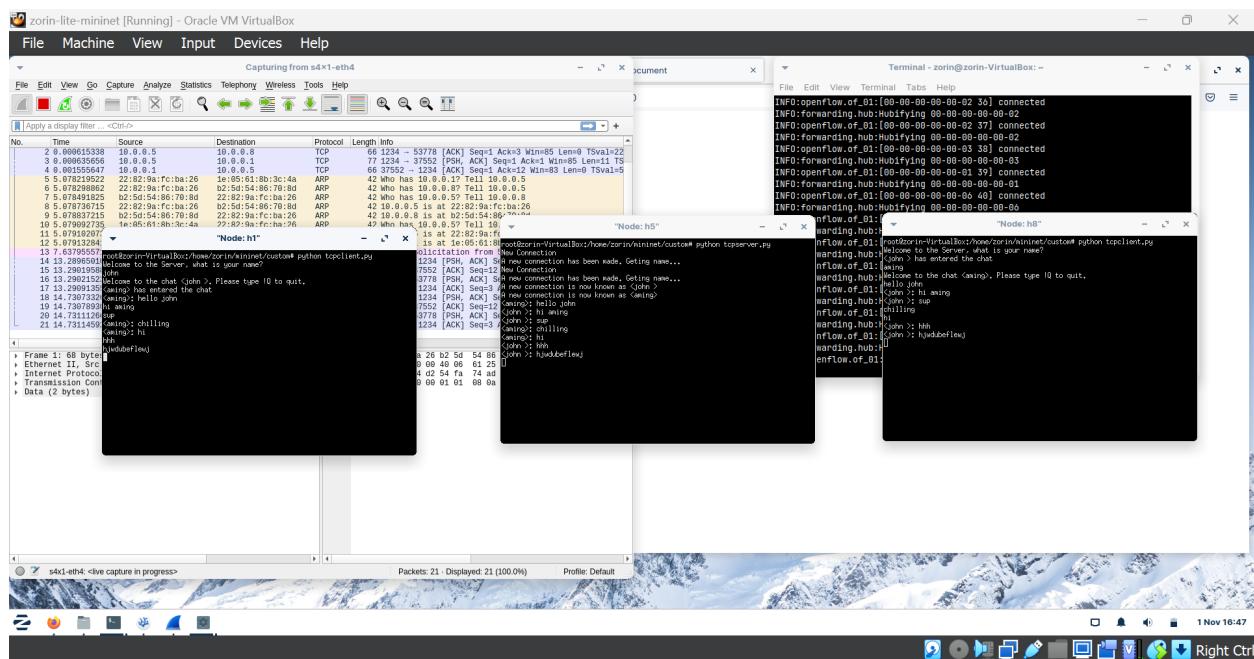

THIS IS A MININET SIMULATION WITH POX

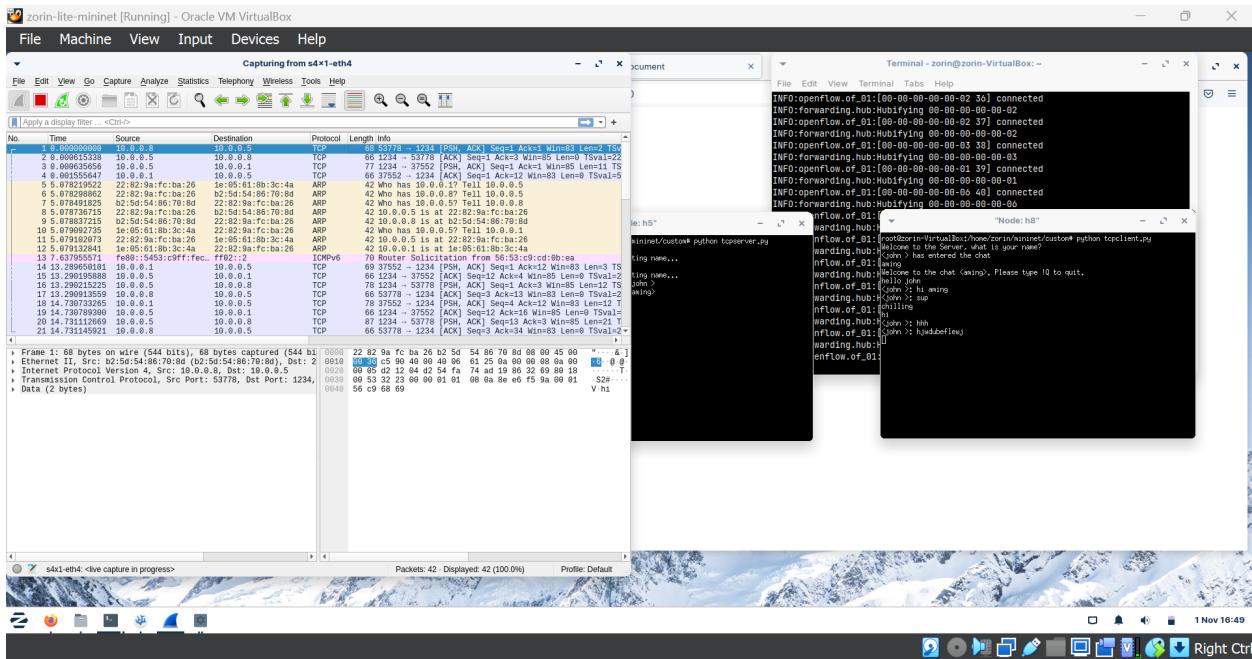

USING POX STILL WORKS AS EXPECTED. THERE ARE NO BROADCAST STORMS BECAUSE THERE ARE NO LOOPS IN THE LINKS. IN THE PHOTO BELOW, IT SHOWS THAT EVERY COMPUTER SEES TRAFFIC.

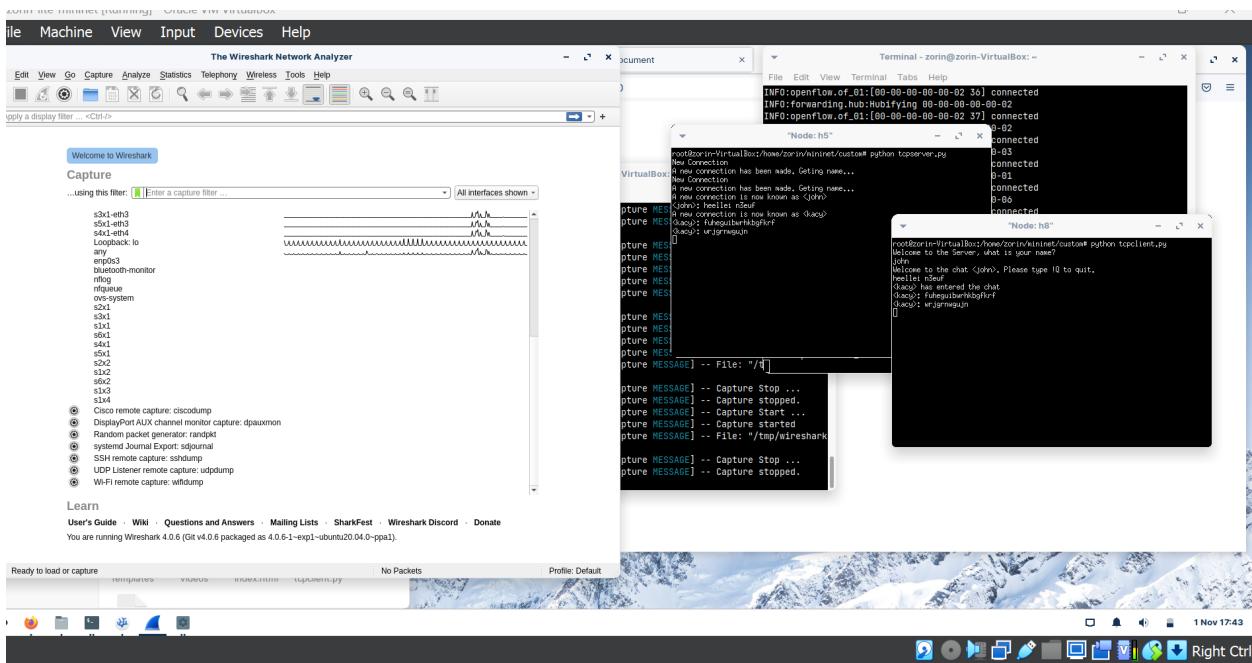

THE PHOTO BELOW SHOWS THE TCP CHAT APP WORKING WITH THE FLOODING ALGORITHM

TCP SHOWS THAT AN EAVESDROPPER CAN LISTEN ON THE SWITCH UNENCRYPTED BELOW

EAVESDROPPING STILL OCCURS

THE IMAGES BELOW ARE USING TLS AND IT SHOWS THAT THE MESSAGES CANNOT BE DECRYPTED BY AN EAVESDROPPER
